TOPICAL INDEX
COLLEGIATE MICROCOMPUTER 1984

Biology, health science
Teaching Molecular Biology with Microcomputers 1
Using a Population-Ecology Simulation in College Courses 61
Software Review: Experiments in Human Physiology 65
Teaching Computer Simulation to Undergraduate Biologists How to Do It 81
Teaching Ecological Modeling with Electronic Spreadsheets 129
Microcomputers in Undergraduate Physiology Laboratories 151
A Laboratory Experience in Fitness Assessment and Exercise Prescription Using a Personal Microcomputer 328

Business, economics
Evolutionary Change in the Use of Computers in Schools of Business 13

Chemistry
Computers in Chemistry at Clarkson College 31

Computer assisted instruction
Computer Assisted Instruction Courseware Development: An Instructional Design Approach 41
CAMELOT . . . Dream or Reality 121
Developing a Multipurpose Microcomputer Learning Laboratory 295
The Explosion in Computer Assisted Adult Learning and The Higher Education Response 355

Computer literacy
Computer Literacy for the Wells College Community 9
Microcomputer Education of College Faculty 97
Teaching the Revolution 215
Professors Learn from Dr. Logo 349

Computer science
Induction and Recursion 169
Who's on First? What's on Second? Review of Computer Simulator 187

Education
Microcomputer Awareness Activity and Undergraduates In a Preservice Teacher Training Program 37
A Staff Development Model for Introducing the Microcomputer To Educators 51
Should Teachers Write Their Own Software? 57
Teaching Software Selection and Evaluation to Education Majors 159
Microcomputers in the College Classroom and the Effect on Student Attitudes Toward Computers 163
Teaching Teachers to Program Who Can Do It? 181
A Three Level Model for Developing Computer Literate Teachers 221

Engineering
Microcomputers in Engineering Hydrology 175

English, composition, literature
Evaluating Computer-Assisted Instruction for Writing 101
Word Processing with Non-standard Alphabets 147
Computer Assistance for Teaching Writing: Review of Programs 193
Word Processing Selection Material Book Review 267
Peer-Tutoring and Class Review by Microcomputer 301

General, utilities
Software Review: Telofacts I 265
One Dimensional Array vs. Two Dimensional Array in Microcomputers 280

Geography
Microcomputer Processing of Remote Sensing Imagery 317

Library, bibliography
Back at 8:00 AM.. - Microcomputer Library Reference Support Programs 289
Personal Bibliographic System and Data Transfer System 309

Mathematics
Using Apple Generated Graphics in Calculus Instruction 229
Algebra Arcade: Software Review 237
An Adventure in Microcomputer Software Publication by a Mathematics Instructor 241
Computer Drawn Polar Coordinate Graphs 273
Understanding Binomial Coefficients Using Logo 283
An Elementary Differential Equations Microcomputer Laboratory 343

Microcomputer milieu
Networking in Academia 19
Here and About There: A Column 60
The Microcomputer - A Second Chance 67
Computer Camping After the Kids Arrive 69
Thanks to the Memory 89
On Selecting A Microcomputer for 1800 Freshmen at Drexel 107
Considerations in Choosing a Microcomputer for Graphics 113
Here and About There: A Column 135
The Mythical "Mountain" of Software 207
Student Reactions to Computer Use in Nontraditional Areas 211
The Campaign Against Pencil Power 255
The Great Soviet Computer Conspiracy 260
Here and About There: A Column 316
The Birth of Interventionist Video 335

Philosophy, logic
Effective Methods for Logic 141

Political science
Project Upheaval: Predicting the Unseating of an Incumbent President 269

Programming, techniques
Function Input Routine for Applesoft 245
For Efficiency Compile Your Basic Subroutine 247
Fast Function Input 251
Graphics for the IBM-PC: A Book Review 259

Software Review: Teaching Is Easy 363
